

New law requires each department of the executive branch, the legislature, and the judicial branch to adopt a program to reduce solid waste, including adopting paperless office programs.

New law requires each branch of state government to adopt a recycling program with emphasis on single stream recycling.

Exiting law establishes the Waste Tire Management Fund which funds shall be used for the purposes of solving the state's waste tire problem.

Existing law provides beginning July 1, 2003, continuing until June 30, 2008, that 5% of all monies from fees collected on the sale of tires be deposited in the Waste Tire Management Fund to provide technical assistance and incentives to encourage market research, development of products which are marketable and provide a beneficial use for promotion of those products and the development of such projects.

New law requires upon expiration of the term provided for in existing law, that any unexpended and unobligated monies deposited in the fund in excess of \$500,000.00 will be available for expenditure pursuant to existing law.

Effective upon signature of governor (June 30, 2010).
